

Vericut Optimizer

1 Day Training Course

Note:

The Vericut Force Optimization class is intended to illustrate how Vericut software can be leveraged to create an optimized program derived from the original posted NC Code. The resulting program can improve performance, shorten machine cycle times, improve tool life, and minimize wear and tear on the machine tool. While all are welcome, this class is intended for users with a general knowledge of the core Vericut product.

This class is from 9:00 AM - 5:00 PM.

Part 1 - INTRODUCTION TO VERICUT OPTIMIZER

Introduction

Welcome
Online Help

Getting Started

Machine Configuration
Control Configuration
Optimize Control
Optimization Saving Calculator
Status
Vericut Log File
Compare Files

Air Cuts

Air Cuts Only Mode

Force Optimization

Optimization parameters

Learn

Learn from NC Program mode

Analyze

Optimizer Analyze mode

Part 2 - VERICUT OPTIMIZER (JOB SETUP)

Model Orientation and Position

Importing models from CAD systems
Locate and orient the models within Vericut
Create parametric stock

Coordinate Systems

How used in Vericut Optimizer
Create Coordinate Systems
Locate/orient Coordinate Systems

NC Programs/Subroutines

Select NC Programs
Select NC Subroutines
Define Work Offsets vs. Program Zero

Tool Configuration

Select Tool Library
Creating Milling Tools
Define and check cutting limits
Copy/reference tool components

PREREQUISITES FOR WEB TRAINING

- Must have the latest version of Vericut running on your computer prior to class. Licensing concerns can be addressed by emailing support.seao@cgtech.com.
- Computer must be set up to support voice over IP. There will be no "Phone-in" option available for the training.
- All users must use headphones or earbuds for listening in. Open speakers can cause feedback problems when microphones are enabled.
- Two monitors are required. Computer display should be configured to extend applications to either monitor (not duplicated).

PRICING:

US\$500 per class per attendee

Training courses are held online via Teams. On-site customer training is also available at US\$1,950/day plus travel expenses.

CLASS TIME:

9am - 5pm per day (SGT)

Classes typically commence between these hours online.

Cancellation Policy:

48 Hours before scheduled training

If you can no longer attend, please notify Vericut at least 48 hours before your scheduled training course is due to commence to avoid being charged the full training fee. All training must be completed within 12 months of purchase.
