

Vericut Verification

2.5 Days Training Course

DAY 1 - BASIC NC PROGRAM SIMULATION & VERIFICATION

This course introduces users to the basics of NC program verification. Following an overview of the graphical user interface and functionality, you'll learn how to run a project in Vericut. Special emphasis will be placed on how to detect and locate errors in NC programs. This course will also show you how to analyze the cut part by using many of Vericut's built-in analysis features, including the ability to compare the cut stock to the design data.

DAY 2 - JOB CONFIGURATION

Day two will expand on the first day and shows how to configure a job in Vericut. We'll cover configuring multiple setup projects, advanced modeling and assembly techniques, and defining tool shapes. You'll learn how to use coordinate systems, subroutines and work offsets. We'll also teach how to define and position the stock model, and orient the models on the machine.

DAY 3 [Half Day] - INTEGRATION

Day three builds on what you learned in the first two days and shows how to integrate Vericut in your manufacturing process. Topics include using Vericut-to-CAD/CAM interfaces and how to customize reports for your specific requirements.

- Must have the latest version of Vericut running on your computer prior to class. Licensing concerns can be addressed by emailing support.seao@cgtech.com.
- Computer must be set up to support voice over IP. There will be no "Phone-in" option available for the training.
- All users must use headphones or earbuds for listening in. Open speakers can cause feedback problems when microphones are enabled.
- Two monitors are required. Computer display should be configured to extend applications to either monitor (not duplicated).

PRICING:

US\$1000 per class per attendee

Training courses are held online via Teams. On-site customer training is also available at US\$1,950/day plus travel expenses.

CLASS TIME:

9am - 5pm per day (SGT)

Classes typically commence between these hours online.

Cancellation Policy:

48 Hours before scheduled training

If you can no longer attend, please notify Vericut at least 48 hours before your scheduled training course is due to commence to avoid being charged the full training fee. All training must be completed within 12 months of purchase.
