

Vericut Optimizer 3.0

JUST OPTIMISE.

Vericut

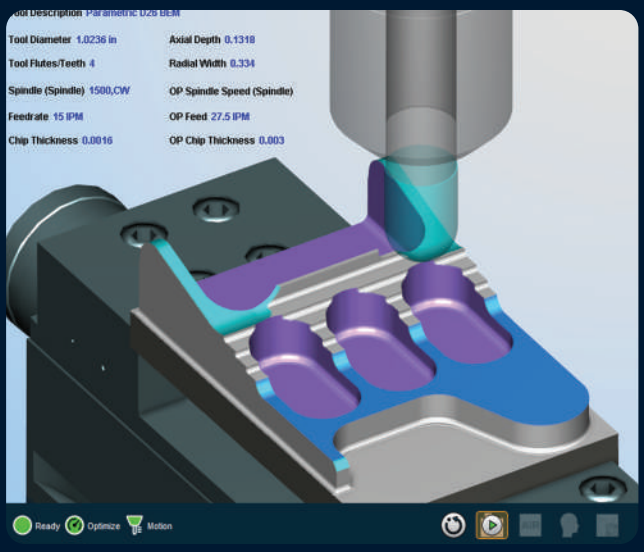

vericut.com/en-gb

Simpler Workflows.

Built-In AI Guidance.

Clearer Savings.

The same trusted NC program optimisation, now easier to learn, use, and prove.

Familiar Power.

A Simpler Experience.

A cleaner interface and reorganised toolbars take you from opening a project to analysing results with fewer clicks.

- New Optimisation Control Bar
- Redesigned Welcome Screen with guided tutorials
- Simplified toolbar, menus, and setup windows
- Image previews for recent projects

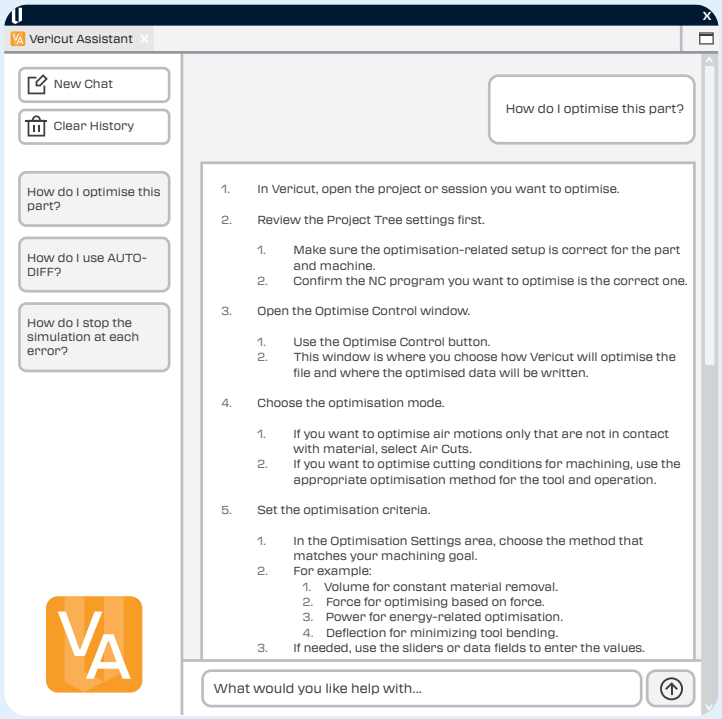

LESS CLUTTER.
MORE OPTIMISING.

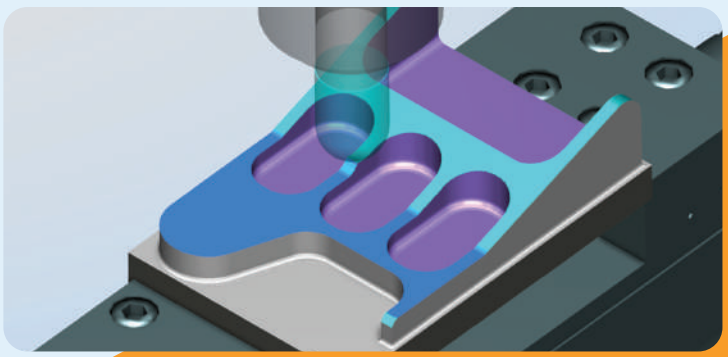

AI That Knows Your Workflow

Vericut Assistant (VA) delivers step-by-step guidance right inside the software. Press F2 on any feature to learn what it does and how to use it.

- Answers to “How do I...” questions
- F2 in-context tooltips and guidance
- Training Viewer keeps lessons in the workspace

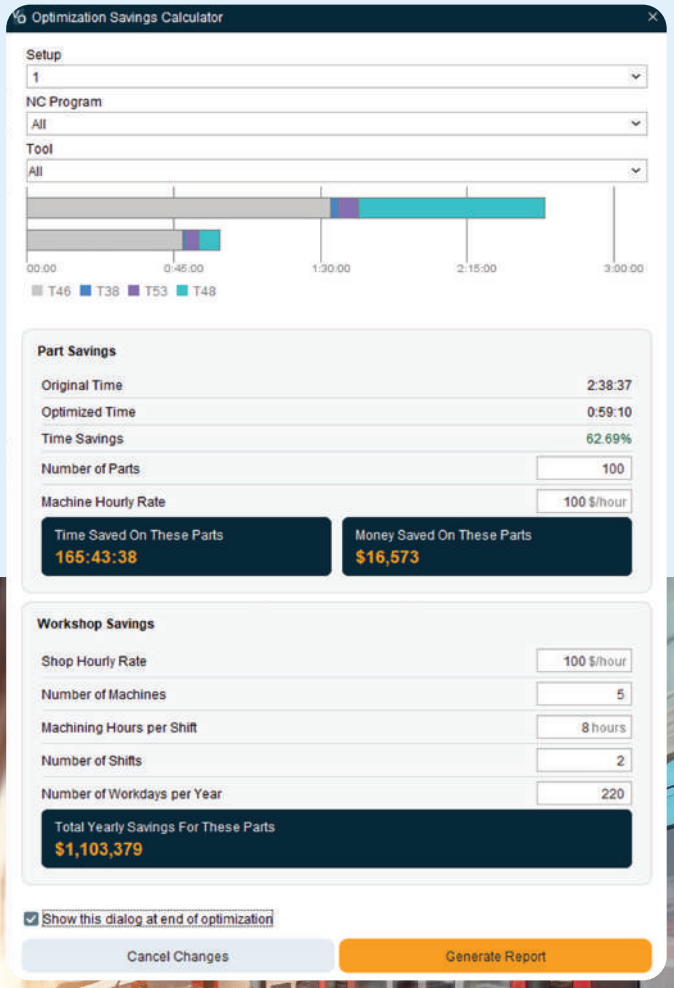

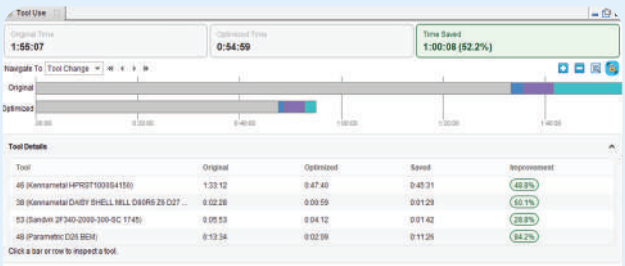

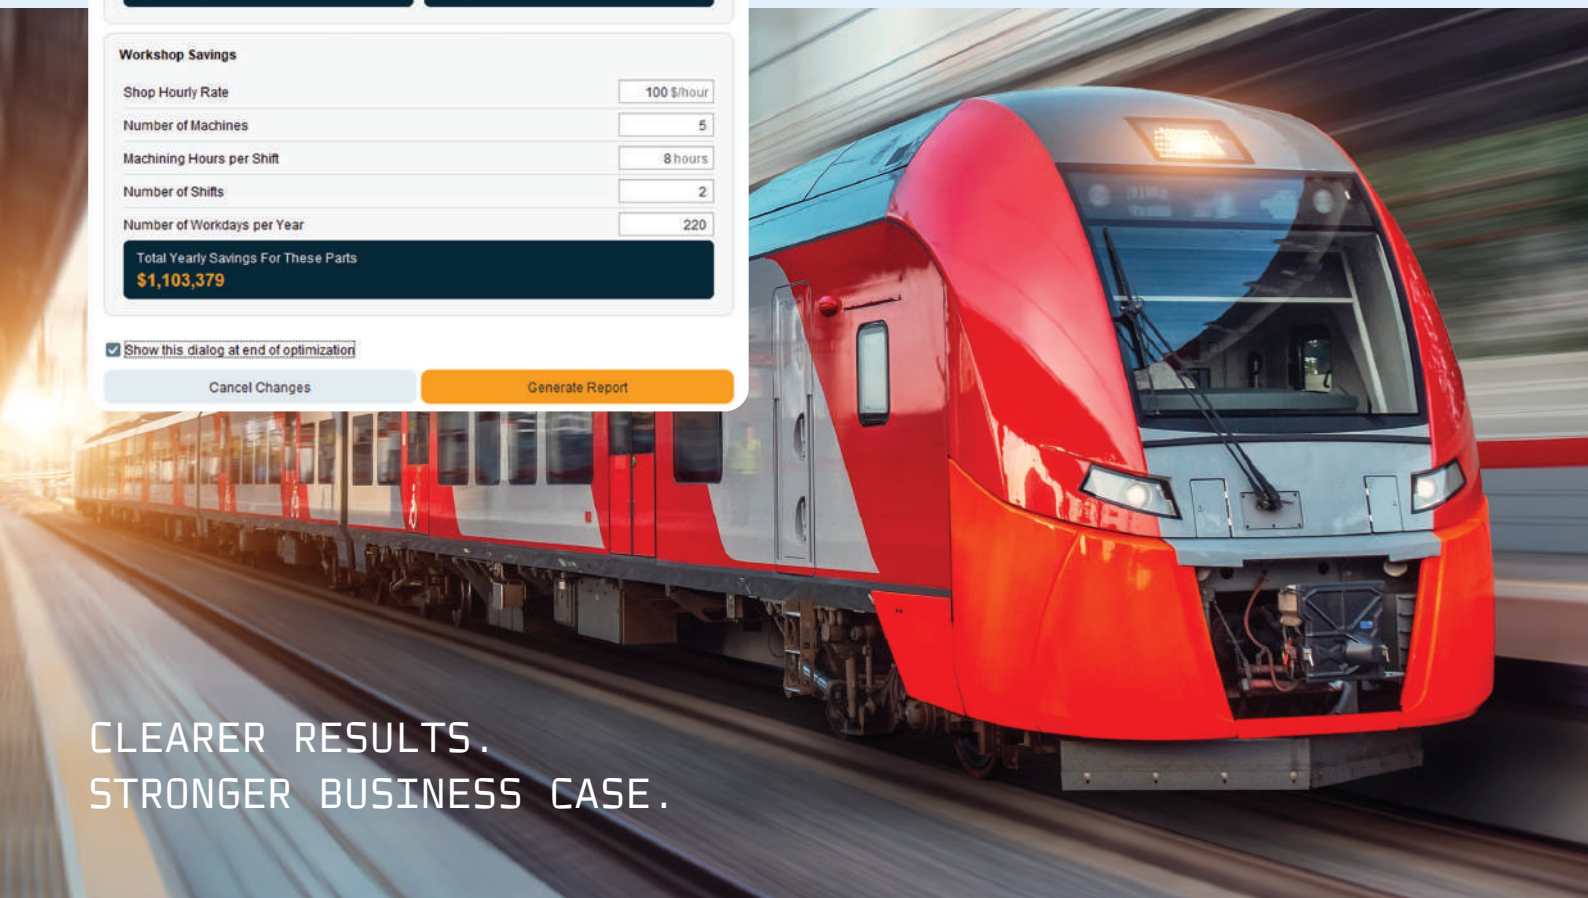

See Every Second Saved. Share Every Dollar.

The enhanced Savings Calculator turns time saved into cost savings and projects annual savings across your shop.

- Shareable savings reports
- Time saved per tool in Tool Use
- Clearer Original vs. Optimised graphs
- Color-coded Compare NC Programs

CLEARER RESULTS.
STRONGER BUSINESS CASE.

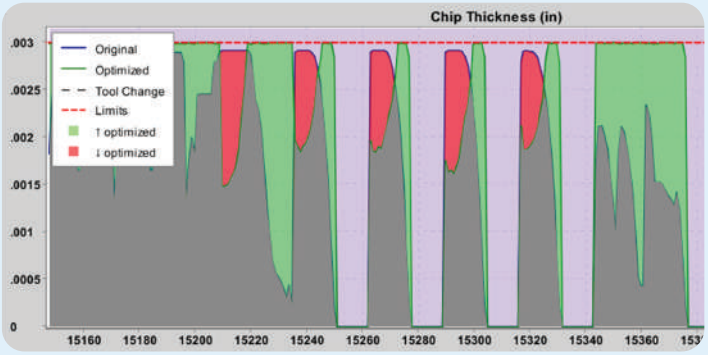

TRUSTED BY
MANUFACTURERS WORLDWIDE

Why Vericut Optimizer?

For more than 35 years, Vericut has helped manufacturers from aerospace to Formula 1 machine with greater speed and confidence. Vericut Optimizer delivers that expertise in a focused, standalone solution:

- Standalone, no Vericut Verification license required
- Optimises APT/CL-file and G-code from almost any CAD/CAM system
- Supports 2 to 5-axis CNC machines
- Backed by Vericut's expert support team
